

GPI07	GPI03
GPI06	GPI02
GPI05	GPI01
GPI04	GPI00

The schematic diagram illustrates the PMOD module connections. It features two 8-pin headers, J1 (02x06) and J2 (Conn_01x02). J1 pins 1-4 are connected to PMOD_D2+, PMOD_D2-, PMOD_D1+, and PMOD_D1- respectively. J1 pins 5-8 are connected to PMOD_D0+, PMOD_D0-, PMOD_D3+, and PMOD_D3- respectively. J2 pins 1 and 2 are connected to +5V and GND. A 220nF capacitor C9 is connected between +5V and GND.
